

Pharmacelsus News

Dear customer,

we wish all of our customers and partners a very happy and prosperous new year! With this e-mail you receive the first issue of the Pharmacelsus newsletter in 2012. This newsletter is intended to inform you with the latest news on Pharmacelsus.

Due to the increasing number of customer requests and in order to reduce the return times, Pharmacelsus strongly extended its capability and capacity. Today, we would like to inform you about the concrete progresses at Pharmacelsus.

If you are interested in visiting Pharmacelsus, don't hesitate to contact us any time.

Sincerely yours,

Dr. Christine Batzl-Hartmann

Dr. Klaus Biemel

CEO

COO

Pharmacelsus strongly expanded its capacity

To faster cope with the growing number of customer requests, Pharmacelsus strongly expanded its capacity:

- To better respond to the growing number of studies, Pharmacelsus hired additional skilled and highly motivated people.
- Pharmacelsus also extended its bioanalytical services with a new high-class LCMS/MS system with Orbitrap® technology to close a technology gap and to overcome a bottleneck in sample throughput.

The new "Q Exactive" combines high-performance quadrupole precursor selection with high-resolution for monitoring parents and metabolites, as well as accurate-mass Orbitrap detection with MS/MS sensitivity and selectivity superior to Q-TOFs.

The capacity extension allows us to react prompter to our customers requirements. We are very happy to be able to perform your projects faster and even better.

We look forward to supporting your studies!

Services available at Pharmacelsus: [ADME & in vitro Pharmacology](#), [Target Finding & Biological Profiling](#), [in vivo Pharmacology & PK](#), [Bioanalytics](#), [Target-Based Bioassays](#)
